Changed examination forms winter term 2023/2024 (Examination Regulations Computer Science 2021)

Subject	Chair	Changed examination form	Study programme
Development of Embedded Systems using FPGA	Prof. Obermaisser	K2	Master Computer Science

For subjects which are planned as written examinations in the winter term 2023/2024, but which were held orally in the previous semester, **the deadline for the examination changeover is 30.11.2023**. Until this date, the examination can still be taken orally with the agreement of the examiners.

Changed examination forms winter term 2023/2024 (Examination Regulations Computer Science 2012)

Subject	Chair	Changed examination form	Study programme
Compilers I	Prof. Lohrey	oral	Bachelor Computer Science
Digital Design and Computer Organization	Prof. Obermaisser	oral	Bachelor Computer Science

Changed examination forms winter term 2022/2023 (Examination Regulations Computer Science 2021)

Subject	Chair	Changed examination form	Study programme
Model Checking	Prof. Lochau	oral	Master Computer Science

**Changed examination forms winter term 2022/2023
(Examination Regulations Computer Science 2012)**

Subject	Chair	Changed examination form	Study programme
Computer Architecture I	Dr. Wahl	oral	Bachelor Computer Science
Computer Graphics I	Prof. Kolb	oral	Bachelor Computer Science
Digital Image Processing	Prof. Möller	oral	Bachelor Computer Science
Model Checking	Prof. Lochau	oral	Master Computer Science
Knowledge Based Systems II	Prof. Fathi	oral	Master Computer Science
Knowledge Management II	Prof. Fathi	oral	Bachelor Computer Science

Changed forms of examination in the summer term 2022, which will remain unchanged (Examination Regulations 2012):

Subject	Chair	Changed examination form	Study programme
Embedded Systems	Prof. Obermaisser	K2	Master Computer Science

Changed forms of examination in the winter semester 2021/2022, which will remain unchanged (Examination Regulations 2012):

Subject	Chair	Changed examination form	Study programme
Algorithmics I	Prof. Lohrey	K1	Master Computer Science
Computer Architecture II	Dr. Wahl	K1	Master Computer Science
Database Systems III	Prof. Lochau	K2	Master Computer Science
Deep Learning	Prof. Möller	K1,5	Master Computer Science
Parallel Processing	Prof. Wismüller	K1	Master Computer Science
Software Engineering II	Prof. Lochau	K2	Master Computer Science
Ubiquitous Computing	Prof. van Laerhoven	K1	Master Computer Science

Please note that this overview contains only the exams offered by the Computer Science Department.

Exams from Electrical Engineering, Mechatronics, Faculty V etc. are not listed here.
