

## ZIMT: Zentrum für Informations- und Medientechnologie (Center for Information and Media Technology)

ZIMT provides the students and staff of University of Siegen a vast list of services. Please note that these services are only accessible once you have completed the enrollment process.

### 1. VPN-Client:

VPN (Virtual Private Network) offers the possibility to connect from a foreign network (e.g., from home) to the network of the University of Siegen in a tap-proof and tamper-proof way. Thus, you have access to contents and services of the university, which are otherwise only accessible within the university. Examples are licensed databases and electronic journals with full texts of the University Library. For details check the link below.

<https://www.zimt.uni-siegen.de/dienste/netzwerk/vpn/index.html.en?lang=en>

### 2. Wireless Fidelity (Wi-Fi)

The university Wi-Fi is called “eduroam”. It is available on all campuses and in the dormitories. In order to connect your system (Mobiles, Lap-top etc.) you need to have the app “Eduroam CAT” You can download this app free of cost from the app store. The thumbnail of the app looks as above but this can be done when you are present on the campus.

Further details can be found on the following link.

<https://www.zimt.uni-siegen.de/dienste/netzwerk/eduroam/index.html.en?lang=en>

### 3. UNISONO is the study organization plat form of University of Siegen. It helps you manage your time schedule, register, and deregister for classes and exams and much more. A detail is available on the following link.

<https://www.youtube.com/watch?v=zDIJMgpVkeE>

#### 4. University-E-Mail-Service

All registered students at the University of Siegen have access to the email service. It is recommended that you use the official email platform to communicate with the staff.

The email service needs to activate via your UNISONO account when after your registration. Please see the file named "UNISONO info for the enrolled students".

#### 5. Moodle

University of Siegen offers the possibility to support web-based courses with the learning management system Moodle, i.e., virtual course rooms can be used to accompany classroom teaching. Lecturers upload tasks and reading material in moodle. In most cases you receive a password from the lecturers to login to their course related section.

#### 6. Sciebo, University cloud service

To save and share files and document in secure way the university offers cloud service called Sciebo. You need to activate your account using your g number. Further information on use and registration can be found on the following link.

<https://www.zimt.uni-siegen.de/dienste/campuscloud/>

#### 7. Software Licenses

ZIMT offers many licenses for software such as Adobe, Autodesk, MATLAB, Endnote and Citavi, etc. Most of these are free of cost for students. A list of these is available on the following website.

[https://www.zimt.uni-siegen.de/beratung\\_und\\_lehre/software/?lang=de](https://www.zimt.uni-siegen.de/beratung_und_lehre/software/?lang=de)

#### 8. Borrowing Equipment and Media

You can borrow electronic equipment and media for your studies free of charge. You can borrow Laptops and projectors, sound, film and image recording equipment etc.
